Dear Parents

## **CHOICE OF A FIRST ADDITIONAL LANGUAGE FOR YOUR CHILD: GRADES 1 – 7 ONLY**

Manor Gardens Primary School offers both Afrikaans and isiZulu as First Additional Languages (FAL) and as Second Additional Languages (SAL) because it is in the children's best interests to be trilingual and to encourage social integration in our multicultural, multiracial and multilingual country. They will be proficient in their First Additional Language and be able to communicate in their Second Additional Language. Furthermore, this provision of two Additional Languages, although on First and Second Language levels, is advantageous to children moving from school to school, be it primary or high school, where a particular First Additional Language hasn't been learnt in that area, region or province.

Please indicate your preference of either Afrikaans or isiZulu for your child's First Additional Language below and return the completed form to school. The other additional language will automatically become their Second Additional Language.

We look forward to receiving your response timeously to draw up the timetable.

Yours sincerely

  
Charles Morgan  
Principal
